EDUCATION

Bachelor of Science

SEEMANTA MAHAVIDYALAYA

- Completed a rigorous academic program in Chemistry, demonstrating strong analytical and problem-solving skills.
- Transitioned to web development post-graduation, utilizing self-learning and hands-on experience to gain proficiency in UI development.

PROFILE

Experienced UI Developer with over 2 years at Hepta Infotech Services, specializing in crafting user-centric and visually appealing web interfaces. Proficient in HTML, CSS and jQuery with ongoing development skills in the MERN stack. Originally from a chemistry background, driven by a passion for technology and continuous learning.

WORK EXPERIENCE

UI DEVELOPER

Hepta Infotech Services

May 2022 - June 2024

- Designed and developed responsive, interactive user interfaces for a range of web applications, enhancing user experience.
- Collaborated with cross-functional teams, including UX designers and backend developers, to implement cohesive design and functionality.
- Contributed to the development of design prototypes and wireframes, translating them into functional web pages.
- Actively involved in improving website performance and optimizing load times.
- Started learning the MERN stack, to expand backend capabilities and overall development expertise.

ADDITIONAL INFORMATION

- Currently learning and practicing MERN stack development through online courses and self-study to broaden technical expertise and project capabilities.
- Strong interest in modern web technologies and keen on exploring full-stack development.
- Looking to leverage frontend expertise in a dynamic team to contribute to impactful web projects.
- Self-motivated career shift from Chemistry to Web Development, showcasing adaptability and a commitment to lifelong learning.
